About Me

I am a front-end developer and a student at the University of Gujrat. I design and build user-friendly websites using modern tools. I enjoy learning new skills and improving my work to create better solutions. I am passionate about technology and making useful things online.

Skills

- HTML, CSS, and JavaScript
- Frontend Frameworks
- Web Design
- Problem Solving
- Teamwork

Education

Matric

Best School System

2010-2020

I completed my matriculation from one of the best schools, achieving an outstanding score of 1065 out of 1100, which corresponds to an exceptional percentage and an A+ grade. This reflects my dedication to academics.

Intermediate

Punjab College

2020-2022

I completed my FSc with an excellent score of 870 out of 1100, earning an A grade. This achievement highlights my consistent academic performance and strong dedication to my studies during a challenging and competitive phase of education.

Bachelor of Computer Science

Gujrat University

2022-Present

I am currently studying at the University of Gujrat, where I have completed my third semester with a CGPA of 2.7. This reflects my commitment to adapting to university-level academics and consistently improving my knowledge and skills in my field of study.

Experience

Front-End Development

Internship

Completed a summer internship at a local IT company, where I worked on developing responsive websites using HTML, CSS, and JavaScript. Gained practical experience in collaborating with teams to meet project deadlines.

Freelance Web Developer

Fiver and Upwork

Designed and developed websites for small businesses and startups in Pakistan. Worked closely with clients to understand their requirements and delivered user-friendly and visually appealing solutions, helping them establish their online presence.

Website for a University Society

Academic Project

Led a team project to create a functional website for a university society. Focused on creating an interactive interface and ensuring mobile responsiveness. This experience strengthened my technical skills and ability to work under deadlines.
